Professional Summary

Professional software developer with strong background in coding, debugging, and software design. Adept at collaborating within teams to deliver high-quality software solutions that meet evolving project needs. Skilled in various programming languages and frameworks, with focus on achieving impactful results and fostering reliable, adaptable work environment. Known for problem-solving abilities, effective communication, and results-driven approach to software development.

TECHNICAL SKILLS

Languages & Tools: Java (Core & Advanced),
JavaScript, C, C++, Git, GitHub

Frontend Development: React.js, HTML, CSS,
WordPress

Backend Development: Spring Boot, REST API,
Laravel, Python, Postman

Databases: SQL, MySQL, MongoDB

WORK EXPERIENCE

Software Developer, 06/2025 to Current

KadelLabs – Bengaluru, India

- Architected an AI-based ticketing system using Java backend logic, featuring brand-wise segregation and automated email-to-ticket conversion.
- Developed robust admin filters for efficient viewing and assignment of brand-specific tickets.
- Integrated OpenAI and AWS Textract to build an intelligent chat support system for knowledge-based automated responses.
- Engineered an automated invoice classification system using Java-friendly API integrations with AWS Textract.
- Streamlined administrative workflows by enabling efficient review, approval, and rejection of invoices.

Software Developer, 07/2023 to 06/2025

AppCrave – Udaipur, Rajasthan

- Built and optimized high-performance end-to-end solutions using Java and Spring Boot, ensuring scalability and high availability.
- Integrated Google Maps and MLS Feed APIs to enhance data accuracy and improve user experience.
- Acted as Tech Lead for a cross-functional team, enforcing clean coding practices and Java design patterns.
- Developed secure RESTful APIs to bridge frontend and backend systems.
- Mentored junior developers through code reviews to maintain high quality standards.

Software Developer, 01/2023 to 06/2023

Taldar Tech Consultancy – Udaipur, Rajasthan

- Developed a logistics package delivery system for a Kuwait-based enterprise with real-time tracking.
- Integrated multiple third-party delivery partner APIs for live status updates.
- Built secure REST APIs ensuring data integrity and cross-device synchronization.

EDUCATION

Master of Computer Application (MCA): 01/2024

Pratap University - Jaipur, Rajasthan

Bachelor of Computer Application (BCA): 01/2022

Mohanlal Sukhadia University - Udaipur, Rajasthan
