

GAURAV SAHITYA

Software Development Engineer II (SDE-II) — Distributed Systems & Java

+91 6377189746 - gauravsahitya62@gmail.com - [LinkedIn](#) - [GitHub](#)

SUMMARY

Senior Engineer with 4+ years of experience designing and scaling distributed backend systems using **Java, Spring Boot, and Microservices**. Expert in REST API latency optimization, AWS cloud integrations, and AI-assisted engineering workflows that drive 35%+ system performance gains.

TECHNICAL SKILLS

Languages & Backend: Java, JavaScript, Python, PHP, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices Architecture

Cloud & DevOps: AWS (S3, Lambda, API Gateway, Textract), Docker, Git, CI/CD

Data Modeling & Storage: MySQL, MongoDB, Query Optimization, Database Indexing, Caching.

Frontend & AI-Assisted SDLC: React.js, JavaScript (ES6+), State Management, Client-Side Aggregation, Cursor AI, Amazon Q Developer, JUnit, Mockito, Automated Testing, Maven, Gradle, CI/CD

PROFESSIONAL EXPERIENCE

Software Engineer

Kadellabs

Bengaluru, India

Jun 2025 - Present

- **AI Systems Platform Architecture:** Architected a Spring Boot automation engine processing **5,000+ requests/month**, cutting manual support overhead by 60%.
- **Asynchronous Data Pipelines:** Integrated OpenAI and AWS Textract to engineer automated document ingestion lines for **1,000+ invoices/month with zero data loss**.
- **Performance Engineering:** Implemented administrative filtering modules via Spring AOP, expanding backend structural data-retrieval speeds by **30%**.
- **AI-Augmented Engineering Governance:** Utilized advanced LLM tools (**Cursor, Amazon Q**) to accelerate core business-logic prototyping and automate unit-test validation layers.

Software Developer

AppCrave

Udaipur, India

Jul 2023 – Jun 2025

- **Microservices Scaling:** Refactored a legacy monolithic platform into decoupled microservices using Spring Boot and Java, seamlessly scaling infrastructure to support **10,000+ active monthly users**.
- **Database Optimization & Latency Control:** Diagnosed MySQL performance bottlenecks by tuning data schemas and queries, successfully cutting downstream production API response latencies by **35%**.
- **Distributed System Integrations:** Engineered secure, data-heavy integration loops for external streams (**Google Maps and MLS Feed APIs**) alongside responsive React.js UI modules to optimize state-management.

Software Engineer (Promoted from Backend Intern)

Fox Digits

Udaipur, India

Jun 2022 – Jun 2023

- **Career Trajectory:** Earned an immediate full-time SDE conversion following a high-impact 6-month internship, taking technical ownership of critical logistics modules.
- **Logistics & Event Sync:** Built a concurrent tracking platform processing **1,000+ daily shipment** updates with zero write-collisions, reducing processing latencies by **30%** via Java webhooks.
- **Test Automation:** Authored comprehensive mock testing suites using **JUnit and Mockito**, driving automated test coverage past an 80% baseline across mission-critical application paths.

EDUCATION

Master of Computer Applications (MCA)

Pratap University

Jaipur, India

Aug 2022 - May 2024

Bachelor of Computer Applications (BCA)

Mohanlal Sukhadia University

Udaipur, India

Jul 2019 - Jun 2022
